

## Cosmetology Services at Flagler Technical Institute

By Appointment Only  
Limited Availability

We offer quality salon services to the public in hair, skin care, and nails through out the year. All of our services are performed by the students under the supervision and counsel of our experienced instructors. Scheduling appointments are done by students in the classroom to give them the experience they will need to begin their new careers.

The FTI Cosmetology Department staff and students appreciate the support that everone has given us in the past, present, and future. We look forward to being a part of your personal care.
